

CHANGE THE GAME

UNLOCK THE REALITY
OF YOUTH GAMBLING

THE FINE LINE BETWEEN GAMING & GAMBLING

How Games Promote Gambling

From loot boxes to virtual currencies to skins – the new generation of digital games often simulate the potentially harmful behaviors of gambling.

HOW ONLINE GAMING PROMOTES GAMBLING:

Games offering opportunities for login rewards with instant upgrades create the habit of gaming every day.

Loot boxes and spin-to-win rewards replicate real-life gambling opportunities by building competition among online friends and allowing players to earn fake money or other prizes.

Innocent-looking games with shiny, little rewards may seem harmless. But they could lead to lifelong issues for the young people exposed to them.

The shift from gaming habit to gambling problem is subtle. But the risks aren't. Learn how to lower the risks for youth at [ChangeTheGameOhio.org](https://www.ChangeTheGameOhio.org)
