

THE DANGERS OF YOUTH GAMBLING

The Risks Go Beyond Gambling

There's more than one reason to take the issue of youth gambling seriously. Adolescent brains aren't fully developed. As a result, young people are more likely to act impulsively and take risks.

RESEARCH SHOWS THAT KIDS WHO GAMBLE ARE MORE LIKELY TO ENGAGE IN OTHER RISKY BEHAVIORS, SUCH AS:

- Using Alcohol
- Using Tobacco
- Criminal Activity
- Falling Behind in Classes
- Getting into Altercations with Other Students
